

MANUFACTURING MANAGEMENT

Working in the many available management positions in production is gratifying and intellectually challenging. A degree in Manufacturing Management from the University of Minnesota Crookston will help you to jump-start a career in manufacturing or may make you eligible for promotion. This major can be taken by all students specially those who are in the work place. It is also ideal for two-year graduates who want to continue their education with seamless integration of prior credits earned.

Some golden nuggets to consider...

CAREER PATHS

- Supply Chain Management
- Lean Manufacturing
- Environmental Health and Safety
- Plant Management
