

Graduates of UMN Crookston's Equine Business Management program understand and are able to manage the daily nutrition, health, and exercise/training needs of horses in their care. They have the knowledge and skills necessary to succeed in equine or equine-related employment and have the business and management experience necessary to operate an equine or related business. The program focus is on the business and management aspects of the horse industry and affiliated agriculture industries, thus providing a broad-based management education which appeals to employers.

*Some golden nuggets to consider*

## CREATE YOUR OWN CAREER PATH

Not JUST a business degree - get all the traditional business education for the office but added hands on curriculum in the barn. Tailor your Equine Business degree to your goals of working within the Equine Industry.

## GET INVOLVED!
