ASSESSMENT is continuous improvement

CHECK

S.F.A.D. is the "CHECK"

 What can you learn about the data/results you have collected?

 Consider how many of your graduates are "PROFICIENT" at the particular outcome being studied.

But what about this???

Liberal Education Assessment

Questions?

- What if I don't have graduates? Do I have to complete an assessment report?
- How can I tell if my changes have been effective?
- Are assessment reporting and program review related?
- What does a "good" assessment report look like?
- What do I do today if I have completed my report?
