

Using Schedule Builder

Use Schedule Builder to create customized class schedules for use during registration. It takes into account desired courses, personal preferences, and a target number of credits. Schedule Builder can include planned or enrolled course(s) from Graduation Planner.

Schedule Builder **does not retrieve** your degree information or completed courses. Creating schedules **does not register** you for classes. Consult with your adviser(s) when planning your schedule for the upcoming term.

find courses

Find my courses
Required course information:
Term
 Fall 2012
 If you know the subject and Catalog number of a course, type it in the "Course" box to find single courses. To search for multiple courses, select a subject area, LE category, or both.
Course
 Narrow my search
Subject [reset](#)
 Select my subjects

 Writing Intensive
 Honors
 2 Create my course list

My course list for Fall 2012
 I plan to take 15 credits this term.
 0 credits out of 15 have been selected.
Courses I need
 Place courses here that you definitely need to take this upcoming term. Priority will be given to these courses when your schedules are created.
Courses I want
 Place courses here that you would consider taking for the upcoming term. Courses placed here will only be included in your schedule if there are no time conflicts.

Complete the required course information fields. If you know the subject and Catalog number of a course, type it in the 'Course' box to find single courses. To search for multiple courses, select a subject area, Liberal Education (LE) category, or both.

Select the number of credits you plan to take for this term.

"Courses I need" could include courses for your major or LE courses you definitely want to take. Priority will be given to these courses when your schedules are created.

"Courses I want" could include courses or electives you would consider taking for the upcoming term. Courses placed here will only be included in your schedule if there are no time conflicts.
